

are you developing  
property in an urban area?

# register for your neighbourly matters consultation

Please complete the following ✓ - Yes

- Is your development in the vicinity of any residential property or other building that may have a requirement for daylight or sunlight amenity, such as a school?
- Is your development adjacent to any gardens or outdoor amenity areas?
- Do any of the neighbouring properties have windows facing the site?
- If the answer to the above question is yes, does the neighbouring property appear to be twenty years old or close to that age?
- Will your development necessitate demolition or construction works immediately adjacent to a neighbouring property?
- Do you intend to undertake construction works at, or adjacent to, a boundary that is currently not built upon?
- Will your development require foundations to be formed within six metres of an adjoining structure?
- Are the constraints of your site such that your contractors will require construction access of any kind to a neighbouring property?
- If your contractors intend to use a crane on your site will it need to oversail any neighbouring properties?
- Are there any rights of way, fire escape routes or any doors or access ways onto your site from adjoining properties?
